

AquaGuard

Sprinkler Pump Power Supply - 400v 3PH - Fuse Box

The AquaGuard dedicated 3 phase sprinkler fuse unit has been designed to meet the specific electrical requirements outlined in BS 7671 for life safety systems and requirements set-out under BS9251:2021.

It provides a reliable, separately fused connection point for 400v 3PH sprinkler pumps, reducing the risk of electrical supply interruption and supporting compliant installation practices. Intended for use with fire-resistant cabling and a direct supply before the property consumer unit, the unit is suitable for typical residential pump loads.

For pricing, availability, or project-specific requirements, please get in touch for a tailored quotation - sales@aquaguardpumps.co.uk

To support a streamlined installation process, we also supply a full range of associated components, including rotary isolators. This allows you to source all essential electrical items for residential sprinkler installations from one place, providing a straightforward, reliable, and compliant one-stop solution.
