

AquaGuard

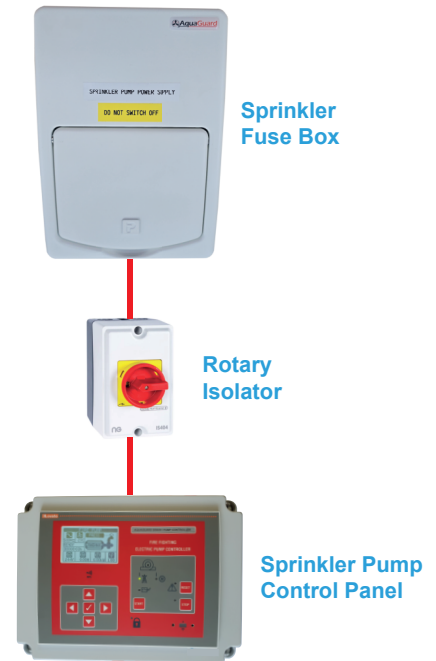

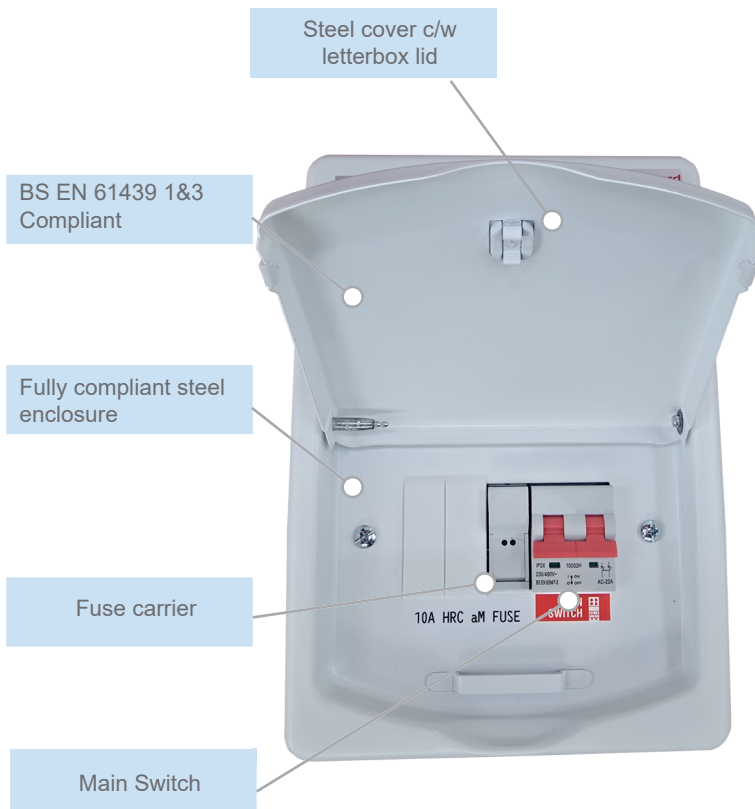

Sprinkler Pump Power Supply - Fuse Box

The AquaGuard dedicated sprinkler fuse unit has been designed to meet the specific electrical requirements outlined in BS 7671 for life safety systems and requirements set-out under BS9251:2021.

It provides a reliable, separately fused connection point for sprinkler pumps, reducing the risk of electrical supply interruption and supporting compliant installation practices. Intended for use with fire-resistant cabling and a direct supply before the property consumer unit, the unit is suitable for typical residential pump loads.

For pricing, availability, or project-specific requirements, please get in touch for a tailored quotation - sales@aquaguardpumps.co.uk

To support a streamlined installation process, we also supply a full range of associated components, including rotary isolators and Aico Ei129 modules for smoke alarm interlinking. This allows you to source all essential electrical items for residential sprinkler installations from one place, providing a straightforward, reliable, and compliant one-stop solution.

Item Order Codes

	Sprinkler Fuse Box c/w HRC aM Fuse	AG-SFB-10A AG-SFB-16A
	20A Rotary Isolator	AG-RI-20A
	Aico Ei129 Module	AG-EIM

Technical

Cable Entry - Selection of Knockouts
 Current Rating - 100A
 Depth - 113mm
 Dimensions - (H)260 mm x (W)182 mm x (D)113 mm
 Door Type - Hinged Flush
 Guarantee - 10 Years
 Height - 260mm
 IP Rating - IP4XC
 Incoming Device - 100A DP Dual Screw Isolator
 Incoming Terminal Capacity - 35mm²
 Material - Steel
 Mounting - Surface
 Number of Modules - 4
 Number of Outgoing Ways - 2
 Standards - BS EN 61439 1&3 / Requirements of BS9251
 Supplied With - 100A Isolator, 1 x Cable Entry Plate & Fuse Carrier
 Surge Protection Fitted - No
 Surge Protection Ready - Yes
 Voltage Rating - 230V
 Weight - 3kg
 Width - 182mm
